

# IAN MUNENE

## Product Manager

Nairobi, Kenya | +254 723 772 430 | [githinji.mnene@gmail.com](mailto:githinji.mnene@gmail.com) | [ian-ruby.github.io](https://ian-ruby.github.io)

---

## SUMMARY

I'm a Product Manager with 9+ years experience leading consumer web/app products across fintech, e-commerce, and B2B platforms in East African markets. Proven record of turning user research and quantitative data into roadmap decisions that measurably improve engagement, uptime, and revenue. Comfortable working directly with engineering, given my background in software engineering, and skilled at aligning cross-functional teams around a shared product vision.

---

## CORE SKILLS

**Product:** Product Roadmapping • Product Strategy & Vision • A/B Testing & Experimentation • User Research • Stakeholder Management • Agile / Scrum

**Tools & Analysis:** Jira • Figma Prototyping • Confluence • Google Analytics • SQL • Excel • UX Design

**Technical Collaboration:** Ruby on Rails (former Software Engineer background - Extensive experience working directly with engineering teams)

**Languages:** English (Proficient) • Swahili (Proficient) • Cantonese (Basic)

## EXPERIENCE

**Product Strategist / Senior Product Manager, EXP** | Educate *May 2024 – Present*

<https://www.experienceeducate.org/>

- Co-launched Sifa, an agentic AI tool that became a crucial user touch point and cut customer friction points/complaints by more than 34% during the experiment phase; it's now in an extended pilot phase.
- Facilitated strategy sessions that produced the EXP LEAN Canvas, sharpening the program's value proposition and guiding priorities for the 824 schools running the program. Before I joined, strategy was fragmented and sporadic.
- Designed and ran a WISE Interventions experiment measuring how psychological interventions increase student agency around launching home businesses; now piloting across 36 of 824 schools. Preliminary results showed a 38% in increased business start for students who'd gone through these interventions.

**Product Manager – Internal Tools** | Kyosk Digital Services Ltd *Feb 2022 – Jan 2023*

<https://kyosk.app/>

- Internationalized 3 apps for launch in Tanzania, Uganda, and Nigeria within the first four months, ensuring the business was launch-ready on day one in each market.
- Cut stock-take time from 8 days to 2 days by using user feedback and quantitative data to drive improvements to the company's stock-take apps.
- Launched three country-specific electronic tax systems (Kenya, Uganda, Tanzania) in full compliance with each market's tax legal requirements.
- Reduced critical/blocker bugs in the internal ERP system from 36 to 0 within two months through daily technical product support.
- Own and maintain a rolling 8-month product roadmap.

**Product Manager** | Proto Energy *Nov 2020 – Jan 2022*

<https://protoenergy.com/>

- Grew revenue by 8% by managing the full product lifecycle of the pre-order dashboard for Liquid Petroleum Gas (LPG).
- Raised monthly platform uptime from 86% to 97% by leading redevelopment of the core LPG distribution infrastructure alongside engineering.
- Led development and launch of a mini-app within the Safaricom M-Pesa app for ordering and delivering LPG, achieving an 8/10 customer satisfaction rating.

**Product Owner: Curriculum** | Andela *Jun 2018 – Jan 2020*

<https://andela.com/>

- Improved partner/customer engagement performance by 5.3% by building a quantitative and qualitative feedback system for Andela partners.

- Coordinated technical curriculum engineers across Uganda, Egypt, and Nigeria to build a data-informed professional skills curriculum guided by hiring partner feedback.

**Product Lead** | Loyalty Club *Jun 2017 – Jan 2020*

<https://loyaltyclub.co.ke>

- Increased app traffic by 19% in four months by launching a rewards-program MVP that let customers accumulate rewards at select shopping outlets.
- Reduced customer drop-offs by 33% (measured via Google Analytics) by redesigning a strenuous onboarding flow.
- Built and maintained a 14-month-deep product roadmap through departure.

## EARLIER CAREER

---

**Classroom & Curriculum Lead, Accelerate Bootcamps** *Jan 2017 – Aug 2017* — Localized curriculum for Hong Kong's first cohort, graduating 20 developers at an 84% hiring rate.

**Curriculum Lead, Moringa School** *Feb 2016 – Jan 2017* — Redesigned technical curriculum with hiring-partner feedback; maintained an 82% hiring rate; launched new Java and Android tracks.

**Software Engineer, Moringa School** *May 2015 – May 2016* — Built the student application-intake pipeline (500+ students recruited) and an attendance sign-in/monitoring system.

## EDUCATION

---

**BSc, Computer Technology** — Jomo Kenyatta University of Agriculture and Technology

*May 2010 – Dec 2014*
